Building for the **Future**

Competence Areas

VENI 

INNOCASIS

A Sustainable Building

BREEAM NOR Certified

- Certified by third party
- Points in 9 different categories

Climate Accounting

- Preserved internal structure
- Solid wood

Energy usage

- Use of energy ¼ of original
- Energy wells – solar PV

EU's Taxonomy

- Contribute to significant reduction in climate gas emissions
- No significant harm

Your Digital Building

Modern

Automatic

Cost Efficient

Safe

Simple

Innoasis is a digital building and has an efficient and secure IT infrastructure

- A common wireless system - Life@Work
- All technical systems managed from in the cloud
- Future ready

We have removed many things that we do not need

- Data point for the users and patch room - instead we have wifi and a fiber network
- Data servers and data rooms (they are in the cloud)
- This saves space and costs for electricity, cooling and access control

life@work

A better life at work

Work Desk Experience

Tenants - Rooms and Resources - Services

- 1 Help make employees become more efficient
- 2 Realise investments in the work space
- 3 Attract and engage talent

life@work
